

REMARKS/ARGUMENTS

Claims 1-15 are currently pending in the application. Claims 5, 6, 14 and 15 stand rejected. Claims 5 and 6 are canceled. Claims 11, 14 and 15 are amended. Applicant has added new claims 16-24. No new matter has been added. Support for new claims 16-24 can be found at least at paragraphs [100-101] of Applicant's as published application and claims 1-4, 7-11. Accordingly, claims 1-4 and 7-24 remain pending in the application.

35 U.S.C. § 101 Rejections

Claims 5, 6, 14 and 15 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter. Specifically, claims 5 and 6 are rejected for reciting a "carrier wave" and as such are nonstatutory natural phenomena. In response, claims 5 and 6 have been canceled.

Claims 14 and 15 are rejected because computer readable is not clearly defined in the specification and the claims to exclude non-transitory media or medium. Applicant has amended claims 14 and 15 to recite, a "storage medium encoded with executable instructions" which is not properly interpreted to include nonstatutory natural phenomena such as the physical characteristics of a form of energy as alleged. Therefore, Applicant's amended claims 14 and 15 are directed to statutory subject matter under 35 U.S.C. § 101. Accordingly, Applicant respectfully requests the rejections of claims 14 and 15 under 35 U.S.C. § 101 be withdrawn.

Allowable Subject Matter

The Examiner is thanked for the indication that claims 1-4 and 7-13 are allowed.
